

Amendments to the OPITO International Guidance for Effective Management of Competence and Training in Emergency Response in the Oil and Gas Industry

This Amendments page has been extracted from the English version of the OPITO International Guidance for Effective Management of Competence and Training in Emergency Response in the Oil and Gas Industry, which is the 'Master' copy of the Guidance document.

The purpose of this Amendments page is to reflect the changing needs of the global industry as these Guidelines will be revised on a 5 yearly cycle. Thereafter, amendments will be translated and incorporated into all other non-English Guidance documents and made available via the OPITO website.

AMENDMENTS
